JOURNAL OF ELECTROANALYTICAL CHEMISTRY AND INTERFACIAL ELECTROCHEMISTRY

Vol. 277 Nos. 1 and 2 10 January 1990

CONTENTS

Nucleation on active sites. Part V. The theory of nucleation rate dispersion
R.L. Deutscher and S. Fletcher (Port Melbourne, Australia) 1

Padé approach to potential transients. Part 1. Electron transfer without and with coupling to first-order homogeneous reactions at planar electrodes
R. Kant and S.K. Rangarajan (Bangalore, India) 19

An investigation of the image potential at the semiconductor/electrolyte interface employing nonlocal electrostatics
B.B. Smith and C.A. Koval (Boulder, CO, U.S.A.) 43

Comparison of four methods of integration in the context of their application in calculations of the surface activity of an organic compound and the excess electrochemical Gibbs energy of mixing in the adsorbate state
M. Karolczak (Poznań, Poland) 73

A wall-jet electrode for in-situ electrochemical ESR
R.G. Compton, C.R. Greaves and A.M. Waller (Oxford, Great Britain) 83

Experimental investigation of thermal and radiation effects induced by deuterium discharge at the palladium electrode
M. Chemla, J. Chevalet, R. Bury and M. Périé (Paris, France) 93

Processes on aluminium on the negative side of the open-circuit potential
J. Radošević, M. Kliškić, P. Dabić (Split, Yugoslavia), R. Stevanović and A. Despić (Belgrade, Yugoslavia) 105

Photoelectrochemical properties of indium doped iron oxide
L.C. Schumacher (Toronto, Canada), N.S. McIntyre (London, Canada), S. Marniche-Afara and M.J. Dignam (Toronto, Canada) 121

Microstructure and electrical properties of IrO_2 prepared by thermal decomposition of $IrCl_3 \cdot x H_2O$. Role played by the conditions of thermal treatment
G. Lodi, A. De Battisti, G. Bordin (Ferrara, Italy), C. De Asmundis (Genoa, Italy) and A. Benedetti (Venice, Italy) 139

Effects of concentration and temperature of alkaline solutions on the electrochemical stability of a gas diffusion electrode
M. Sato, M. Ohta and M. Sakaguchi (Niigata, Japan) 151

Application of azoles as neutral carriers in liquid membrane ion-selective pH electrodes
J. Chojnacki and J.F. Biernat (Gdańsk, Poland) 159

An XPS investigation of silver chloride coated ion-selective electrodes
C.A. Strydom, J.F. van Staden and H.J. Strydom (Pretoria, Republic of South Africa) 165

Electrical activity controlling system for a mediator-coexisting alcohol dehydrogenase-NAD conductive membrane
S. Yabuki, H. Shinohara, Y. Ikariyama and M. Aizawa (Tokyo, Japan) 179

Electrochemical properties of some naturally occurring quinones
S.A. Petrova, M.V. Kolodyazhny and O.S. Ksenzhek (Dniepropetrovsk, U.S.S.R.) 189

Electrochemistry of conducting polypyrrole films containing cobalt prophyrin
C. Armengaud, P. Moisy, F. Bedioui, J. Devynck (Paris, France) and C. Bied-Charreton (Orsay, France) 197

Electrode processes of Cr(II) in non-complexing and complexing media
P.K. Wrona (Warsaw, Poland) 213

Properties and stability of supersaturated chromium amalgam
P. Ochodzki and P.K. Wrona (Warsaw, Poland) 225

Electrocatalytic mediation of oxidation of H_2 at gold by chemisorbed states of anions
H. Angerstein-Kozlowska, B.E. Conway (Ottawa, Canada) and A. Hamelin (Meudon, France) . 233

(*continued on p. 3 of cover*)

Contents (*continued*)

Hydride formation of Ni-containing glassy-metal electrodes during the H_2 evolution reaction in alkaline solutions
L. Vračar (Belgrade, Yugoslavia) and B.E. Conway (Ottawa, Canada) 253

Electrochromic NiO_xH_y hydrated films: cyclic voltammetry and ac impedance spectroscopy in aqueous electrolyte
A. Gorenstein, F. Decker (Campinas, Brazil), W. Estrada, C. Esteves (Lima, Peru), A. Andersson (Gothenburg, Sweden), S. Passerini, S. Pantaloni and B. Scrosati (Rome, Italy) 277

The phase transfer mechanism of 12- and 18-molybdophosphate anions (Keggin- and Dawson-type structures) across the water/nitrobenzene interface
Y. Liu and E. Wang (Changchun, People's Republic of China) 291

Transfer behaviour of cobaltous ion across the water/nitrobenzene interface facilitated by 2,2'-bipyridine
Y. Liu and E Wang (Changchun, People's Republic of China) 305

Analysis of time-dependent kinetics for the oxidation of methanol on a platinum electrode and reaction mechanism
R. Inada, K. Shimazu and H. Kita (Sapporo, Japan) 315

An in-situ multiple internal reflection Fourier transform infrared spectroscopic (MIRFTIRS) investigation of the growth mechanism of polyphenylene during electrooxidation of biphenyl in methylene dichloride
M.-C. Pham, S. Aeiyach, J. Moslih, P. Soubiran and P.-C. Lacaze (Paris, France) 327

Short communication

Why is covalent immobilization of quinones possible at electrodes via aminosilanes?
A.A. Solov'ev and E.Yu. Katz (Moscow, U.S.S.R.) 337

Preliminary notes

Measurement of hydrogen uptake by palladium using a quartz crystal microbalance
G.T. Cheek (Annapolis, MD, U.S.A.) and W.E. O'Grady (Washington, DC, U.S.A.) 341

Quantitative and in-situ measurements of proton transport at polyaniline film electrodes
K. Shimazu, K. Murakoshi and H. Kita (Sapporo, Japan) 347

Poly(fluorinated 3-alkyl) thiophene)
W. Büchner, R. Garreau, M. Lemaire (Paris, France), J. Roncali and F. Garnier (Thiais, France) 355

Vanadium pentoxide xerogel as rechargeable cathodic material for lithium batteries
R. Baddour, J.P. Pereira-Ramos, R. Messina and J. Perichon (Thiais, France) 359

Author index 367

Subject index 368

JOURNAL OF ELECTROANALYTICAL CHEMISTRY AND INTERFACIAL ELECTROCHEMISTRY and BIOELECTROCHEMISTRY AND BIOENERGETICS

Publication schedule for 1990. Publication of Bioelectrochem. Bioenerg. is behind schedule

Month	J	F	M	
J. Electroanal. Chem.	277/1+2 278/1+2	279/1+2 280/1	280/2 281/1+2	The publication schedule for futher issues will be published later.
Bioelectrochem. Bioenerg.		298/1
